## **Conformance Technologies First to Make PCI DSS 3.2 Compliance Validation Available**

**LAS VEGAS, May 17, 2016** (Business Wire) — [Conformance Technologies](#), a fast-growing provider of operating systems, education systems and expertise used in managing business compliance requirements, today announced its best-in-class PCI ToolKit® solution for merchant PCI compliance validation fully conforms to the new [Payment Card Industry Data Security Standard \(PCI DSS\) version 3.2](#). Businesses around the world use PCI DSS to safeguard payment data before, during and after purchases are made. The patent pending Conformance Compliance Operating System™ facilitated rapid PCI ToolKit deployment of the new 3.2 standard which was recently [published](#) by the [PCI Security Standards Council \(PCI SSC\)](#) on April 28, 2016.

PCI DSS version 3.2 addresses the growing and evolving threats to consumer payment information. The PCI SSC recommends companies accepting, processing or receiving payments should adopt the new version of the standard as soon as possible to prevent, detect and respond to cyberattacks which can lead to data breaches. All current PCI ToolKit users will gain access to PCI DSS 3.2 validation by June 1, 2016.

“With rampant data security and privacy incidents, it’s critical for merchants to ensure business viability by validating payment card data handling systems and processes regularly to make sure they comply the latest PCI DSS standard,” states Darrel Anderson, president of Conformance Technologies. “With the Conformance Compliance Operating System, we are able to quickly update our solutions to meet new PCI DSS versions and incremental revisions which are expected to occur with increasing frequency,” adds Anderson.

PCI ToolKit is a [patented](#), cost-effective solution that tackles the complexity of PCI DSS compliance validation head-on for merchant acquirers, Independent Sales Organizations (ISOs) and their customers. Merchants can graphically validate and maintain compliance with ease. Superior pricing with actionable sales and support centers in three states makes PCI ToolKit a solution that can’t be beat for operators of merchant portfolios.

To learn more about how the PCI ToolKit 3.2 solution from Conformance Technologies can benefit you and your portfolio of customers, please telephone 775.336.5533 or email [info@conformancetech.com](mailto:info@conformancetech.com).
